

CURRICULUM DEVELOPMENT CELL (CDC)

INTRODUCTION

The Curriculum Development Cell (CDC) is constituted in the college to ensure the effective planning, development, enrichment, and continuous review of the B.Ed. curriculum in accordance with the guidelines of the affiliating university, NCTE, and the National Education Policy (NEP) 2020. The Cell aims to strengthen the academic framework by integrating contemporary pedagogical practices, educational technologies, Indian Knowledge Systems, value-based education, and outcome-based learning approaches. Through systematic curriculum review and stakeholder engagement, the CDC ensures that the curriculum remains relevant, learner-centred, and responsive to the changing needs of teacher education.

OBJECTIVES

- To plan and support effective implementation of the B.Ed. curriculum as prescribed by the affiliating university and regulatory bodies.
- To periodically review and suggest enrichment of curriculum through value-added courses, certificate programmes, workshops, and skill-based modules.
- To integrate innovative teaching-learning strategies, ICT tools, experiential learning, and project-based learning in the curriculum.
- To promote alignment of curriculum with NEP 2020, learner outcomes, professional competencies, and employability skills.
- To incorporate interdisciplinary perspectives, inclusive education practices, environmental education, and ethical values in teacher education.
- To collect and analyse feedback from students, alumni, faculty, school mentors, and experts for curriculum improvement.
- To encourage faculty participation in curriculum design, syllabus transaction planning, and development of teaching-learning resources.
- To support the inclusion of Indian Knowledge Systems, local context, and community-based learning experiences in the B.Ed. programme.
